Eco-Calendar 2021

Less plastic, an advantage for everyone

Dear Fellow Citizens,

We would once again like to thank you for your unwavering commitment to separating and managing your waste correctly. **The results of all the municipalities in the Convention are truly excellent**, not just at provincial level, but also on a regional and nationwide scale.

The maturity we have acquired in **respecting the environment** (and we urge you to uphold this high level of attention when it comes to waste management) therefore leads us to address a very topical issue this year, in other words pollution due to plastic waste and to the excessive use of **"disposable" products**, which has sadly risen, despite our best efforts, owing to the personal protection equipment which we are forced to wear.

Indeed, the year **2021 marks a cornerstone** in this direction: many of those **plastic** products which are partly responsible for soil and water pollution (straws, cotton ear buds, disposable plates and cutlery, for instance) will no longer be available for purchase and will be replaced by more sustainable products. But that's not all: many products in alternative materials to plastic, such as wood, bamboo and ceramic, are already on the market.

We therefore invite you to browse through this calendar month by month, follow the waste sorting instructions and become aware of our inspiring topic, **reflecting on the everyday choices** which can lead to a reduction in waste and in the protection of our planet in general.

Last but not least, we would like to thank you for your cooperation in the difficult management of the **medical emergency** due to the outbreak of COVID 19 and encourage you to dispose of all personal protection equipment you may have used correctly with the non-recyclable dry waste, in the hope that we will soon be able to stop wearing it.

Please remember that in the event of new restrictions or emergency measures, our Municipality and the Convention will be operational through the various channels to provide useful instructions for waste management in times of crisis.

Thank you again and happy New Year 2021!

THE MAYOR

Non recyclable

What

Only put out waste in the **dedicated bags provided**.

If you are running out of bags for the non-recyclable dry waste **WITH RFID** you can **contact your municipality offices** for a new supply.

**DISPOSABLE MASKS
AND GLOVES SHOULD BE
DISPOSED OF IN NON-
RECYCLABLE DRY WASTE,
SEALED IN A BAG!**

Non-recyclable waste: management rules

1. Put out **only bags with RFID distributed by the municipality**; other types of bin bags will not be collected.
2. Put out the bag **only when it is full** and devoid of any recyclable waste. The bag must **under no circumstances exceed 7-8 kg in weight**.
3. Sort your waste as much as possible in order to minimise the unsorted non-recyclable dry part.

Nappy and diaper collection

(Service available upon booking)

How

- Users who need this service can request it at the Municipality for the collection of **children's diapers and adults' nappies** (excluding female sanitary towels and pet potty mats); nappies and diapers are collected in red-coloured bin bags provided by the Municipality. **The service is offered weekly on the collection day of non-recyclable goods.**
- **CAUTION!** Put out bags **weighing no more than 7-8 kg**

Happy new year without "disposables"!

From 2021
plastic cutlery,
crockery, cotton ear
buds, straws and
balloon stems will no
longer be sold

Happy Christmas #plasticfree!

If you still have some old plastic baubles then carry on using them, but if you need to renovate your decorations then opt for those in fabric, wood or bamboo!

December 2021

Put your waste out the night before collection day starting from 8 pm

Please book "bulky waste-furniture/ LARGE W.E.E.E." collection phoning to the municipal office
